

OUR PHILOSOPHY

We believe in helping individuals, peers and organizations by fostering hope and providing the tools necessary to develop their knowledge, skills, attitudes and self-awareness in order to empower them as well as the society wherein they live.

CONTACT US

All new ideas, which fit with the philosophy of the Philanthropy Center for Children and the Elderly, are welcome.

ABOUT US

The Philanthropy Center for Children and the Elderly is community based and non-governmental organization, serves Mongolian youth and elderly populations in need. We aim to empower the local community by helping them to realize their potential power.

Our experts are involved both in training and consultancy accomplishments to improve the functioning of communities and individuals in order to increase their positive social impact. Our team of professionals from the different field combines international quality standards with local knowledge and respond to the communities' realities and needs.
